TECHNICAL SKILLS

- Software Development
- Frontend Development
- Graphic Design and UI/UX Design
- Quality Assurance
- Project Management

PROGRAMMING LANGUAGES AND TOOLS

- Java
- JavaScript
- Python
- React
- HTML, CSS, Bootstrap
- MongoDB
- Node.js , Express.js
- Canva
- Figma
- Pixilart
- Adobe Photoshop
- Wordpress

CORE SKILLS

- Leadership
- Good Communication
- Problem Solving
- Teamwork Collaboration
- Flexibility, Agility and Adaptability
- Document Writing

PROFILE SUMMARY

As a driven IT graduate from PHINMA University of Pangasinan, I specialize in designing and developing captivating, user-friendly websites. With a solid foundation in HTML, CSS, Java, and JavaScript, I continuously seek opportunities to enhance my skills and challenge myself. I am committed to innovation and constant improvement, aiming to create work that not only fulfills project goals but also pushes the boundaries of my abilities.

EDUCATION

PHINMA University of Pangasinan

Bachelor of Science in Information Technology
Major in Web Development
2021 - 2025

WORK EXPERIENCE

PIXELHUB DESIGN + DIGITAL AGENCY – Internship
GRAPHIC DESIGNER (January 16 2025 - April 16 2025)

Calasiao LGU Website
WordPress | Figma

I contributed to the design and development of the official website for the Calasiao LGU as part of a collaborative team project. I created multiple wireframes to plan the site's layout, user experience, and content structure. The website was built using WordPress to ensure ease of use and efficient content management. One of the main things we did was integrate the LGU's Facebook posts, which we each gathered and embedded into the site.

DOT Region 3 Tourism Website
Figma | Figma Plugins | Figma Community

I worked on designing a wireframe for the DOT Region 3 Tourism website using Figma. I collaborated with my team throughout the design process, drew inspiration from the Figma Community, and used various plugins to streamline the workflow and enhance efficiency.

MAJOR PROJECTS

CDKC: Web-based Medical Services
Capstone Project and Web Development 2023 - 2024
React | MongoDB | Express.js | Node.js

Co-developed a web application designed to facilitate seamless interaction between patients and admins. The platform allows patients to easily schedule appointments, access their medical records, and order medications, improving convenience and reducing wait times. In addition, it provides admins with tools to manage appointments, update patient records, oversee inventory, and generate reports, streamlining administrative tasks. The user-friendly interface allows easy navigation for both patients and admins.

CliniQ - Clinic Queueing Management System
Junior Final Project 2023
React | React Native | Node.js | Express.js | MySQL

Co-Developed a web and mobile queueing management system designed to revolutionize patient flow, optimize clinical efficiency and enhance the healthcare patient experience.

PCRealm
New Venture Creation 2024
Figma | React | TypeScript | Babylon.js

Led and proposed a web system that helps users build their ideal PC setup within budget constraints. The application features an interactive simulation tool, allowing users to drag and drop components, check compatibility, and estimate performance level.

PROFESSIONAL CERTIFICATES

- **Employability Skills - JobReady (Wadhwani Foundation)**
  - Completed at September 10, 2024

- **Web Development (Solo Learn)**
  - Complete at October 23, 2023

- **Python Developer (Solo Learn)**
  - Complete at September 18, 2024

- **Redefining Web Security: Innovative Captcha Alternative (Bitstop Network Services)**
  - Completed at May 19, 2023

- **Cybershield: Safeguarding Your Digital World (University of the Philippines)**
  - Completed at May 03, 2024

- **Introduction to Graphic Design**
  - Completed at March 21, 2025

- **Certificate of Completion (ON THE JOB TRAINING at Pixelhub Creative Design Studio)**
  - Completed 500 hours from January 16, 2025 - April 16, 2025
